

## SiteAudit

### Overview

SiteAudit is the leading managed print services (MPS) software for medium to enterprise organizations. SiteAudit Version 4 offers new capabilities in Web reports, advanced supplies management and fleet analysis. SiteAudit is the MPS tool for managing all makes and models, local and networked printers.

Advanced data collection capabilities and stored history provide Key Performance Indicators to maximize printer utilization, track SLA's, print volumes and more. Proactive notification and reporting help to reduce supplies, inventory, operations and other costs related to fleet management.

### Features

- Discovery and data collection using adaptive fleet technology, supports inclusion / exclusion
- Agent-less tracking users, local and networked printers
- Meter tracking of total, b/w, color, duplex, fax and over 20 separate counters
- Advanced supplies tracking including % levels, coverage, yields & estimated remaining pages
- Service level management including uptime, downtime, response time & SLA creating
- Inventory manage IMAC/R changes
- Hundreds of standard and customizable web and scheduled reports
- Rule-based notification and thresholds

New consumables view - levels %, estimated remaining pages, coverage % and more ...

## Benefits

- Imperceptible traffic during data collection allows for fleet management, trending, metrics tracking.
- Deployment is fast and easy without security issues about job, local and printer tracking.
- Accurate meter reads plus analysis of all volumes e.g. color and printer utilization helps reduce cost.
- Control costs with just in time ordering. Report replacement frequency, best cart-ridge yields.
- Improve printer uptime, reduce service response time with SLA tracking and reporting.
- Track moves / changes for accurate meter tracking.
- Obtain the latest information on costs, supplies, inventory, etc. ... to efficiently manage the fleet.
- Receive alerts that optimizes fleet performance.

## Applications

SiteAudit 4.0 is the best tool for internal IT fleet management and experienced MPS service providers.

- Comprehensive assessment
- Meter reading and billing automation
- Capacity planning, rationalizations
- Service level creation and tracking
- Help desk trouble ticket integration
- JIT supplies management
- Inventory & logistics management

## What is new in version 4.0

- Standard and customer web reports
- Latest information via report scheduling
- Key Performance Indicators (KPIs) with summary analysis view
- Advanced supplies management with consumables view and key metrics

The screenshot shows the Netaphor SiteAudit web reporting interface. The browser address bar indicates the URL is http://localhost/ReportingWebSite/MyReports/VolumeAnalysis/Default.aspx. The interface includes a navigation menu on the left with options like 'Assessment Details', 'Consumables', 'Host Analysis', 'Incident History', 'Inventory', 'Job Analysis', 'Lifetime Counters', 'Problems Analysis', 'SLA Analysis', and 'Volume Analysis'. The main content area displays a table of reports with columns for 'Report', 'Formats', and 'Last revised'. The 'Report' column lists various analysis types such as 'Canon and HP Meters', 'General Volume Analysis', 'HP Color Meter Report', 'KIM and Canon', 'Konica Minolta Last Month Meters', 'Meter Report: Canon Ricoh', 'Overview', 'Ricoh Last Month', 'Ricoh Monthly', 'Volume Analysis by Manufacturer and Color Printers', 'Volume Analysis by Manufacturer Summation and Counts', 'Volume Analysis by Manufacturer and Monochrome Printers', 'Volume Analysis Last 30 Days', 'Volume Analysis with counts', and 'Xerox Volume'. The 'Formats' column shows available output formats like PDF, HTML, XLS, and RTF. The 'Last revised' column shows the date and time of the last update for each report.

Report	Formats	Last revised
Canon and HP Meters	PDF HTML XLS CSF RTF	7/1/2010 8:41 AM
General Volume Analysis	PDF HTML XLS CSF RTF	8/10/2010 8:46 AM
